Limiting overlapping jurisdiction regarding the permitting of storm water projects.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that the department of ecology is primarily responsible for the approval of storm water projects.

Expresses a belief that once the department of ecology approves a proposed storm water project, it is inappropriate for the department of fish and wildlife to require a major redesign of that project in order for the applicant to obtain hydraulic project approval.

Declares that it is more appropriate for the department of fish and wildlife to defer the design elements of a storm water project to the department of ecology and focus its own efforts on determining reasonable mitigation or conditions for the project based upon the project's potential harm to fish.

Declares an intent of the legislature to restore some balance over conditions attached to hydraulic permits, and to minimize overlapping state regulatory authority regarding storm water projects in order to reduce waste in both time and money while still providing ample protection for fish life.

Maintaining the residential parenting program at the women's correctional center.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds persuasive national statistics that demonstrate that incarcerated mothers who develop strong parenting skills and bond with their children are less likely to reoffend.

Finds that the residential parenting program at the women's correctional center protects public safety and promotes outcomes that are socially and fiscally responsible by reducing recidivism and reducing the likelihood that a child of an incarcerated mother will become at-risk for committing criminal offenses as a juvenile or adult.

Directs the department to maintain a residential parenting program at its major correctional institutions for women to allow those inmates who give birth while incarcerated, and who meet eligibility requirements, to keep their infants with them during their incarceration. The program shall provide an appropriate living situation for the infants, promote positive parenting skills, and facilitate transition services back into the community.

Requires the department to maintain a separate financial account for infant participants in the residential parenting program.

Declares that funds in the infant's account may be used only for the infant's needs and expenses and equipment needed for proper infant care. Such funds may not be used to pay for maternal expenses and may not be applied to the mother's legal financial obligations.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the department to work with representatives of tenants in manufactured/mobile home parks, representatives of manufactured/mobile home park landlords, the administrator for the courts, the Washington state association of counties, the association of Washington cities, and other interested parties to develop a program for resolving disputed violations of chapter 59.20 RCW.

Requires the department and interested parties to develop an agreed-upon program consistent with this act by June 30, 2003. If the department and interested parties cannot agree on a program by then, the department shall develop the program by December 31, 2003.

Requires the program to provide mediation and arbitration services consistent with chapter 59.20 RCW at no cost to the disputants of an alleged violation of chapter 59.20 RCW.

Directs the department to provide a status report on the mediation and arbitration program created under this section by December 1, 2004, and a final report by December 1, 2005, to the legislature. Each owner of a manufactured/mobile home park either registered or determined by the office to be an owner of a manufactured/mobile home park shall pay to the office an annual fee to fund the administrative costs of the mediation and arbitration program established by this act.

**SB 6368-S** by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Thibaut, Deccio and Winsley)

Developing a comprehensive prescription drug education and utilization system.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that prescription drugs are an effective and important part of efforts to improve the health of Washington state residents. Yet prescription drug

expenditures in both the public and private sectors are growing at rates far in excess of consumer or medical inflation, placing a strain on the ability of public and private health care purchasers to continue to offer comprehensive health benefits coverage. In addition, inappropriate use of prescription drugs can have serious health consequences for Washington state residents.

Declares an intent to develop a comprehensive prescription drug education and utilization system in Washington state that will improve prescription drug prescribing practices, increase consumer understanding of and compliance with appropriate use of prescription drugs, and improve prescription drug purchasing through a sound evidence-based process that evaluates the therapeutic value and cost-effectiveness of prescription drugs.

Requires the administrator, in concert with other state agencies involved in state purchased health care, to begin implementation of a preferred drug program by January 1, 2003.

Declares that the preferred drug program is initially limited to fee-for-service prescription drug purchasing through medical assistance programs under chapter 74.09 RCW, the uniform medical plan under this chapter, and other state purchased health care programs. The administrator must include bulk purchased prescription drugs in the preferred drug program according to a timetable of the administrator's choosing. The preferred drug program shall not be applied to health care purchased through managed care contracts with carriers.

Provides that, to complement the preferred drug program established in this act, the administrator must, in concert with state agencies involved in state-purchased health care: (1) Implement a program of academic detailing and client counterdetailing that educates physicians and other prescribers, and clients of state-purchased health care, on the cost-effective utilization of prescription drugs on the preferred drug list;

(2) By July 1, 2004, use mechanized drug claims processing and information retrieval systems to analyze medical claims to identify those providers who request that prescriptions for nonpreferred drugs be dispensed as written on a more frequent basis than their peers, and provide information and education to those providers as needed; and

(3) Conduct a feasibility study of developing a system to periodically provide a complete drug profile of persons covered through state-purchased health care systems to each person's primary care provider.

Requires the administrator to design, in concert with state agencies involved in state-purchased health care, a uniform drug utilization review program for state-purchased health care. Each state agency that purchases or provides health care services must adopt the uniform drug utilization review program and may implement it directly or by contract or interagency agreement. The program must include but is not limited to prescription drug review, management, and education, including prospective, concurrent, and retrospective review, to improve the quality of pharmaceutical care by ensuring that prescription drugs provided through state-purchased health care programs advance quality clinical outcomes and are appropriate, medically necessary, and not likely to produce adverse medical results.

Authorizes the administrator to engage in consolidated prescription drug purchasing. The authority granted the administrator by this provision shall be liberally construed to achieve the purposes of this act.

Directs the administrator, in concert with agencies involved in state-purchased health care, to design and implement at least two, but not more than five, pilot disease management programs for persons covered through state-purchased health care programs. The programs must begin operation by July 1, 2003.

Requires any savings to health care benefit programs administered by the public employees' benefits board that result from implementation of the prescription drug education and utilization system under this act to be deposited into the public employees' and retirees' insurance account established under RCW 41.05.120.

Requires that, by January 1, 2003, the administrator must submit to the governor and the health care and fiscal committees of the legislature a progress report regarding the implementation of the prescription drug education and utilization system.

Provides that, by January 1, 2004, and January 1, 2005, the administrator must submit to the governor and the health care and fiscal committees of the legislature a report on the impacts of the prescription drug education and utilization system.

Requires that, by January 1, 2003, the secretary of the department of social and health services shall submit to the governor and the health care and fiscal committees of the legislature a report on implementation and operation of the therapeutic consultation program.

Prohibiting price gouging during significant disruption, emergency, or disaster.

#### (DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that consumers are vulnerable to price gouging or clearly excessive pricing during times of abnormal market conditions caused by significant disruptions, emergencies, or disasters.

Declares that excessive and unjustified increases in retail prices charged during abnormal market conditions as defined in this act should be prohibited and made subject to civil remedies.

Declares that in addition to the powers in chapters 43.06 and 38.52 RCW for the governor to make disaster or emergency proclamations, for purposes of triggering the provisions in this act, the governor is also hereby

empowered to make and to rescind a proclamation of an abnormal market condition as defined in this act.

Provides that, upon the proclamation by the governor under chapters 43.06 and 38.52 RCW or this act of an abnormal market condition, and for a period of thirty days following the proclamation, or a lesser time period if the proclamation is rescinded, it is unlawful for any person to sell or offer to sell at retail any essential consumer good or service within the area designated in the proclamation at a clearly excessive increase in price above the price charged by that person for such goods or services immediately prior to the proclamation as specified in this act.

Facilitating the convicted offender DNA data base.

#### (DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that DNA data bases are important tools in criminal investigations, in the exclusion of individuals who are the subject of investigations or prosecutions, and in detecting recidivist acts.

Declares it is the policy of this state to assist federal, state, and local criminal justice and law enforcement agencies in both the identification and detection of individuals in criminal investigations and the identification and location of missing and unidentified persons.

Finds that it is in the best interest of the state to establish a DNA data base and DNA data bank containing DNA samples submitted by persons convicted of felony offenses and DNA samples necessary for the identification of missing persons and unidentified human remains.

Finds that the DNA identification system used by the Federal Bureau of Investigation and the Washington state patrol has no ability to predict genetic disease or predisposal to illness. Nonetheless, the legislature intends that biological samples collected under RCW 43.43.754, and DNA identification data obtained from the samples, be used only for purposes related to criminal investigation, identification of human remains or missing persons, or improving the operation of the system authorized under RCW 43.43.752 through 43.43.758.

Provides that every sentence imposed under chapter 9.94A RCW, for a felony specified in RCW 43.43.754 that is committed on or after the effective date of this act, must include a fee of one hundred dollars for collection of a biological sample as required under RCW 43.43.754, unless the court finds that imposing the fee would result in undue hardship on the offender.

Authorizes the commissioner to issue a license to a rental car company that is in compliance with this act authorizing the rental car company to act as a rental car agent under this act, in connection with and incidental to rental agreements, on behalf of any insurer authorized to write rental car insurance in this state.

Declares that every rental car agent licensed under this act shall promptly reply in writing to an inquiry of the commissioner relative to the business of car rental insurance.
